| Category 1: Processor Brand:                                                                                                                                     | Intel                  |
| Category 1: Processor Name:                                                                                                                                      | Core i5,Core M,Celeron |
| Category 1: Base Processor Speed Per Core (GHz):                                                                                                                 | 1.1                    |
| Category 1: Physical CPU Cores (count):                                                                                                                          | 2                      |
| Category 1: System Memory (GB):                                                                                                                                  | 8                      |
| Category 1: Default Low-power Mode:                                                                                                                              | Sleep Mode             |
| Category 1: Long Idle Power Used for Sleep Mode:                                                                                                                 | No                     |
| Category 1: Off Mode (watts):                                                                                                                                    | 0.2                    |
| Category 1: Sleep Mode (watts):                                                                                                                                  | 0.3                    |
| Category 1: Long Idle (watts):                                                                                                                                   | 1.5                    |
| Category 1: Short Idle (watts):                                                                                                                                  | 3.3                    |
| Category 1: Base TEC Allowance (kWh):                                                                                                                            | 8                      |
| Category 1: Functional Adder Allowances (kWh):                                                                                                                   | 7.4                    |
| Category 1: TEC of Model (kWh):                                                                                                                                  | 11.3                   |
| Notebooks, Desktops, Integrated Computers, Slate/Tablets, Two-in-one Notebooks, and Portable All-in-ones Category for TEC (Typical Energy Consumption) Criteria: | 1                      |
| Category 1: Operating System Name:                                                                                                                               | Windows 10             |
| Sleep Mode Default Time Upon Shipment (min.):                                                                                                                    | 20                     |
| Display Sleep Mode Default Time Upon Shipment (min.):                                                                                                            | 10                     |
| WOL (Wake on LAN) From Sleep:                                                                                                                                    | Shipped Disabled       |
| Will the Speed of Any Active 1 GB/s or Higher Ethernet Network Links be Reduced to Less Than 1 GB/s When Transitioning to Sleep or Off Mode?:                    | No                     |
| Ethernet Capability:                                                                                                                                             | No                     |

|                           |                               |
