## Lenovo - Lenovo V15 G2 ITL : Lenovo V15 G2 ITL

## Specifications

|                                                  |                   |
|--------------------------------------------------|-------------------|
| ENERGY STAR Unique ID:                           | 2376458           |
| Brand Name:                                      | Lenovo            |
| Model Name:                                      | Lenovo V15 G2 ITL |
| Model Number:                                    | Lenovo V15 G2 ITL |
| Type:                                            | Notebook          |
| Category 1: Processor Brand:                     | Intel             |
| Category 1: Processor Name:                      | Core i3           |
| Category 1: Base Processor Speed Per Core (GHz): | 3.0               |
| Category 1: Physical CPU Cores (count):          | 2                 |
| Category 1: System Memory (GB):                  | 16                |
| Category 1: Long Idle Power Used for Sleep Mode: | No                |
| Category 1: Off Mode (watts):                    | 0.2               |
| Category 1: Sleep Mode (watts):                  | 0.9               |
| Category 1: Long Idle (watts):                   | 3.7               |
| Category 1: Short Idle (watts):                  | 5.5               |
| Category 1: Base TEC Allowance (kWh):            | 8                 |
| Category 1: Functional Adder Allowances (kWh):   | 19.3              |
| Category 1: TEC of Model (kWh):                  | 20.6              |
| Category 2: Processor Brand:                     | Intel             |
| Category 2: Processor Name:                      | Core i7           |
| Category 2: Base Processor Speed Per Core (GHz): | 2.8               |
| Category 2: Physical CPU Cores (count):          | 4                 |
| Category 2: System Memory (GB):                  | 16                |
| Category 2: Long Idle Power Used for Sleep Mode: | No                |
| Category 2: Off Mode (watts):                    | 0.2               |
| Category 2: Sleep Mode (watts):                  | 1.1               |
| Category 2: Long Idle (watts):                   | 2.8               |
| Category 2: Short Idle (watts):                  | 5.1               |
| Category 2: Base TEC Allowance (kWh):            | 14                |

|                                                                                                                                                                         |                                                   |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------|
| <b>Category 2: Functional Adder Allowances (kWh):</b>                                                                                                                   | 19.3                                              |
| <b>Category 2: TEC of Model (kWh):</b>                                                                                                                                  | 19.4                                              |
| <b>Notebooks, Desktops, Integrated Computers, Slate/Tablets, Two-in-one Notebooks, and Portable All-in-ones Category for TEC (Typical Energy Consumption) Criteria:</b> | 1                                                 |
| <b>Category 1: Operating System Name:</b>                                                                                                                               | Windows 10                                        |
| <b>Category 2: Operating System Name:</b>                                                                                                                               | Windows 10                                        |
| <b>Sleep Mode Default Time Upon Shipment (min.):</b>                                                                                                                    | 10                                                |
| <b>Display Sleep Mode Default Time Upon Shipment (min.):</b>                                                                                                            | 4                                                 |
| <b>WOL (Wake on LAN) From Sleep:</b>                                                                                                                                    | Shipped Enabled Under All Conditions              |
| <b>Will the Speed of Any Active 1 GB/s or Higher Ethernet Network Links be Reduced to Less Than 1 GB/s When Transitioning to Sleep or Off Mode?:</b>                    | No                                                |
| <b>Ethernet Capability:</b>                                                                                                                                             | No                                                |
| <b>Touch Screen:</b>                                                                                                                                                    | No                                                |
