## Lenovo - Legion Slim 5 14APH8 : Legion Slim 5 14APH8

## Specifications

|                                                                                                                                                                  |                      |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------|
| ENERGY STAR Unique ID:                                                                                                                                           | 2507918              |
| Brand Name:                                                                                                                                                      | Lenovo               |
| Model Name:                                                                                                                                                      | Legion Slim 5 14APH8 |
| Model Number:                                                                                                                                                    | Legion Slim 5 14APH8 |
| Type:                                                                                                                                                            | Notebook             |
| Category 2: Processor Brand:                                                                                                                                     | AMD                  |
| Category 2: Processor Name:                                                                                                                                      | AMD Ryzen 9 7940HS   |
| Category 2: Base Processor Speed Per Core (GHz):                                                                                                                 | 4.0                  |
| Category 2: Physical CPU Cores (count):                                                                                                                          | 8                    |
| Category 2: System Memory (GB):                                                                                                                                  | 64                   |
| Category 2: Long Idle Power Used for Sleep Mode:                                                                                                                 | No                   |
| Category 2: Off Mode (watts):                                                                                                                                    | 0.3                  |
| Category 2: Sleep Mode (watts):                                                                                                                                  | 0.9                  |
| Category 2: Long Idle (watts):                                                                                                                                   | 0.9                  |
| Category 2: Short Idle (watts):                                                                                                                                  | 13.6                 |
| Category 2: Base TEC Allowance (kWh):                                                                                                                            | 14                   |
| Category 2: Functional Adder Allowances (kWh):                                                                                                                   | 36.2                 |
| Category 2: TEC of Model (kWh):                                                                                                                                  | 39.6                 |
| Notebooks, Desktops, Integrated Computers, Slate/Tablets, Two-in-one Notebooks, and Portable All-in-ones Category for TEC (Typical Energy Consumption) Criteria: | 2                    |
| Category 2: Operating System Name:                                                                                                                               | Windows 11 Pro       |
| Sleep Mode Default Time Upon Shipment (min.):                                                                                                                    | 5                    |
| Display Sleep Mode Default Time Upon Shipment (min.):                                                                                                            | 5                    |
| Will the Speed of Any Active 1 GB/s or Higher Ethernet Network Links be Reduced to Less Than 1 GB/s When Transitioning to Sleep or Off Mode?:                    | No                   |
| Ethernet Capability:                                                                                                                                             | No                   |
| Touch Screen:                                                                                                                                                    | No                   |
| Date Available On Market:                                                                                                                                        | 2023-05-07           |

|                        |                                                   |
