## MSI - MS-14N2 : Prestige 14 AI Studio C1VFG

## Specifications

|                                                                                                                                                                  |                             |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------|
| ENERGY STAR Unique ID:                                                                                                                                           | 3356777                     |
| Brand Name:                                                                                                                                                      | MSI                         |
| Model Name:                                                                                                                                                      | MS-14N2                     |
| Model Number:                                                                                                                                                    | Prestige 14 AI Studio C1VFG |
| Type:                                                                                                                                                            | Notebook                    |
| Category 2: Processor Brand:                                                                                                                                     | Intel                       |
| Category 2: Processor Name:                                                                                                                                      | Core Ultra 9 185H           |
| Category 2: Base Processor Speed Per Core (GHz):                                                                                                                 | 3.1                         |
| Category 2: Physical CPU Cores (count):                                                                                                                          | 16                          |
| Category 2: System Memory (GB):                                                                                                                                  | 32                          |
| Category 2: Default Low-power Mode:                                                                                                                              | Connected Sleep             |
| Category 2: Long Idle Power Used for Sleep Mode:                                                                                                                 | Yes                         |
| Category 2: Off Mode (watts):                                                                                                                                    | 0.2                         |
| Category 2: Sleep Mode (watts):                                                                                                                                  | 2.3                         |
| Category 2: Long Idle (watts):                                                                                                                                   | 2.3                         |
| Category 2: Short Idle (watts):                                                                                                                                  | 6.1                         |
| Category 2: Base TEC Allowance (kWh):                                                                                                                            | 14                          |
| Category 2: Functional Adder Allowances (kWh):                                                                                                                   | 57.2                        |
| Category 2: TEC of Model (kWh):                                                                                                                                  | 25.4                        |
| Notebooks, Desktops, Integrated Computers, Slate/Tablets, Two-in-one Notebooks, and Portable All-in-ones Category for TEC (Typical Energy Consumption) Criteria: | 2                           |
| Category 2: Operating System Name:                                                                                                                               | Windows 11                  |
| Sleep Mode Default Time Upon Shipment (min.):                                                                                                                    | 10                          |
| Display Sleep Mode Default Time Upon Shipment (min.):                                                                                                            | 10                          |
| WOL (Wake on LAN) From Sleep:                                                                                                                                    | Shipped Disabled            |
| Will the Speed of Any Active 1 GB/s or Higher Ethernet Network Links be Reduced to Less Than 1 GB/s When Transitioning to Sleep or Off Mode?:                    | Yes                         |
| Ethernet Capability:                                                                                                                                             | Yes                         |

|                           |                                                   |
|---------------------------|---------------------------------------------------|
| Touch Screen:             | No                                                |
| Date Available On Market: | 2024-01-13                                        |
| Date Certified:           | 2024-01-05                                        |
| Markets:                  | United States, Switzerland, Taiwan, Japan, Canada |
| ENERGY STAR Certified:    | Yes                                               |
