| Type:                                                                                                                                                            | Notebook                                                       |
| Category 2: Processor Brand:                                                                                                                                     | Intel                                                          |
| Category 2: Processor Name:                                                                                                                                      | Core Ultra 7 165U                                              |
| Category 2: Base Processor Speed Per Core (GHz):                                                                                                                 | 1.7                                                            |
| Category 2: Physical CPU Cores (count):                                                                                                                          | 12                                                             |
| Category 2: System Memory (GB):                                                                                                                                  | 32                                                             |
| Category 2: Default Low-power Mode:                                                                                                                              | Modern Standby                                                 |
| Category 2: Long Idle Power Used for Sleep Mode:                                                                                                                 | Yes                                                            |
| Category 2: Off Mode (watts):                                                                                                                                    | 0.2                                                            |
| Category 2: Sleep Mode (watts):                                                                                                                                  | 1.1                                                            |
| Category 2: Long Idle (watts):                                                                                                                                   | 1.1                                                            |
| Category 2: Short Idle (watts):                                                                                                                                  | 4.0                                                            |
| Category 2: Base TEC Allowance (kWh):                                                                                                                            | 14                                                             |
| Category 2: Functional Adder Allowances (kWh):                                                                                                                   | 22.5                                                           |
| Category 2: TEC of Model (kWh):                                                                                                                                  | 15.1                                                           |
| Notebooks, Desktops, Integrated Computers, Slate/Tablets, Two-in-one Notebooks, and Portable All-in-ones Category for TEC (Typical Energy Consumption) Criteria: | 2                                                              |
| Category 2: Operating System Name:                                                                                                                               | Microsoft Windows 11 Professional (64-bit)                     |
| Sleep Mode Default Time Upon Shipment (min.):                                                                                                                    | 5                                                              |
| Display Sleep Mode Default Time Upon Shipment (min.):                                                                                                            | 5                                                              |
| WOL (Wake on LAN) From Sleep:                                                                                                                                    | Shipped Enabled Under All Conditions                           |
| Will the Speed of Any Active 1 GB/s or Higher Ethernet Network Links be Reduced to Less Than 1 GB/s When Transitioning to Sleep or Off Mode?:                    | Yes                                                            |

|                           |                      |
|---------------------------|----------------------|
| Ethernet Capability:      | Yes                  |
| Touch Screen:             | Yes                  |
| Date Available On Market: | 2024-11-01           |
| Date Certified:           | 2024-10-24           |
| Markets:                  | United States, Japan |
| ENERGY STAR Certified:    | Yes                  |
