## dynabook - PORTEGE X40L-M : PZA40\*

## Specifications

|                                                                                                                                                                  |                          |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------|
| ENERGY STAR Unique ID:                                                                                                                                           | 3998721                  |
| Brand Name:                                                                                                                                                      | dynabook                 |
| Model Name:                                                                                                                                                      | PORTEGE X40L-M           |
| Model Number:                                                                                                                                                    | PZA40*                   |
| Type:                                                                                                                                                            | Notebook                 |
| Category 2: Processor Brand:                                                                                                                                     | Intel                    |
| Category 2: Processor Name:                                                                                                                                      | Core Ultra 7             |
| Category 2: Base Processor Speed Per Core (GHz):                                                                                                                 | 2.2                      |
| Category 2: Physical CPU Cores (count):                                                                                                                          | 16                       |
| Category 2: System Memory (GB):                                                                                                                                  | 64                       |
| Category 2: Default Low-power Mode:                                                                                                                              | Connected Modern Standby |
| Category 2: Long Idle Power Used for Sleep Mode:                                                                                                                 | No                       |
| Category 2: Off Mode (watts):                                                                                                                                    | 0.4                      |
| Category 2: Sleep Mode (watts):                                                                                                                                  | 0.6                      |
| Category 2: Long Idle (watts):                                                                                                                                   | 0.6                      |
| Category 2: Short Idle (watts):                                                                                                                                  | 3.4                      |
| Category 2: Base TEC Allowance (kWh):                                                                                                                            | 14                       |
| Category 2: Functional Adder Allowances (kWh):                                                                                                                   | 29.9                     |
| Category 2: TEC of Model (kWh):                                                                                                                                  | 11.1                     |
| Notebooks, Desktops, Integrated Computers, Slate/Tablets, Two-in-one Notebooks, and Portable All-in-ones Category for TEC (Typical Energy Consumption) Criteria: | 2                        |
| Category 2: Operating System Name:                                                                                                                               | Windows 11               |
| Sleep Mode Default Time Upon Shipment (min.):                                                                                                                    | 5                        |
| Display Sleep Mode Default Time Upon Shipment (min.):                                                                                                            | 5                        |
| WOL (Wake on LAN) From Sleep:                                                                                                                                    | Shipped Disabled         |
| Will the Speed of Any Active 1 GB/s or Higher Ethernet Network Links be Reduced to Less Than 1 GB/s When Transitioning to Sleep or Off Mode?:                    | Yes                      |
| Ethernet Capability:                                                                                                                                             | Yes                      |

|                           |                                                   |
|---------------------------|---------------------------------------------------|
| Touch Screen:             | No                                                |
| Date Available On Market: | 2025-03-31                                        |
| Date Certified:           | 2025-02-25                                        |
| Markets:                  | United States, Switzerland, Taiwan, Japan, Canada |
| ENERGY STAR Certified:    | Yes                                               |
