

## DELL - T18G : Latitude 7030 Rugged Extreme Tablet

### Specifications

|                                                  |                                     |
|--------------------------------------------------|-------------------------------------|
| ENERGY STAR Unique ID:                           | 2668609                             |
| Brand Name:                                      | DELL                                |
| Model Name:                                      | T18G                                |
| Model Number:                                    | Latitude 7030 Rugged Extreme Tablet |
| Type:                                            | Notebook                            |
| Category 1: Processor Brand:                     | Intel                               |
| Category 1: Processor Name:                      | Core i3                             |
| Category 1: Base Processor Speed Per Core (GHz): | 1.0                                 |
| Category 1: Physical CPU Cores (count):          | 6                                   |
| Category 1: System Memory (GB):                  | 8                                   |
| Category 1: Default Low-power Mode:              | ALPM                                |
| Category 1: Long Idle Power Used for Sleep Mode: | No                                  |
| Category 1: Off Mode (watts):                    | 0.2                                 |
| Category 1: Sleep Mode (watts):                  | 0.8                                 |
| Category 1: Long Idle (watts):                   | 0.8                                 |
| Category 1: Short Idle (watts):                  | 4.5                                 |
| Category 1: Base TEC Allowance (kWh):            | 8                                   |
| Category 1: Functional Adder Allowances (kWh):   | 10.5                                |
| Category 1: TEC of Model (kWh):                  | 13.7                                |
| Category 2: Processor Brand:                     | Intel                               |
| Category 2: Processor Name:                      | Core i7                             |
| Category 2: Base Processor Speed Per Core (GHz): | 1.1                                 |
| Category 2: Physical CPU Cores (count):          | 10                                  |
| Category 2: System Memory (GB):                  | 32                                  |
| Category 2: Default Low-power Mode:              | ALPM                                |
| Category 2: Long Idle Power Used for Sleep Mode: | No                                  |
| Category 2: Off Mode (watts):                    | 0.2                                 |
| Category 2: Sleep Mode (watts):                  | 1.5                                 |
| Category 2: Long Idle (watts):                   | 1.5                                 |
| Category 2: Short Idle (watts):                  | 4.7                                 |

|                                                                                                                                                                         |                                                   |
