

## ENERGY STAR CERTIFIED Enterprise Servers

### CISCO - UCS-C225-M6 : Cisco UCS-C225-M6 with two CPU slot populated family

#### Specifications

|                                                            |                                                      |
|------------------------------------------------------------|------------------------------------------------------|
| ENERGY STAR Unique ID:                                     | 3387980                                              |
| ENERGY STAR Partner:                                       | Cisco Systems                                        |
| Brand Name:                                                | CISCO                                                |
| Model Name:                                                | UCS-C225-M6                                          |
| Model Number:                                              | Cisco UCS-C225-M6 with two CPU slot populated family |
| Form Factor:                                               | Rack-mount                                           |
| Resilient System:                                          | No                                                   |
| Available Expansion Slots:                                 | 4                                                    |
| Operating Systems Supported:                               | Windows,Linux                                        |
| Power Saving Features Available:                           | Other                                                |
| Product Processor Socket Count:                            | 2                                                    |
| Available DIMM Slots:                                      | 32                                                   |
| Maximum Memory Capacity (GB):                              | 8000.0                                               |
| Installed Processors for Typical or Single Configuration:  | 2                                                    |
| Cores Per Processor Typical or Single Configuration:       | 32                                                   |
| Number of Threads for Typical or Single Configuration:     | 64                                                   |
| Processor Brand Typical or Single Configuration:           | AMD                                                  |
| Processor Model Name Typical or Single Configuration:      | EPYC 7543 32-Core Processor                          |
| Processor Speed for Typical or Single Configuration (GHz): | 2.8                                                  |
| Num. of DDR Channels for Typical or Single Configuration:  | 6                                                    |
| Memory Speed Typical or Single Configuration (GHz):        | 3.2                                                  |
| Typical or Single Configuration Size Per DIMM (GB):        | 16                                                   |
| Installed Num. DIMMs for Typical or Single Configuration:  | 16                                                   |
| Installed Memory for Typical or Single Configuration (GB): | 256.0                                                |

|                                                                            |                              |
|----------------------------------------------------------------------------|------------------------------|
| <b>Typical or Single Configuration Redundant Power Supply:</b>             | No                           |
| <b>SERT Active State Efficiency Score Typical or Single Configuration:</b> | 57.10                        |
| <b>SERT Version :</b>                                                      | Other                        |
| <b>SERT Version Other :</b>                                                | 2.0.7                        |
| <b>64-bit Architecture:</b>                                                | 64-bit supported             |
| <b>Date Available On Market:</b>                                           | 2023-12-01                   |
| <b>Date Certified:</b>                                                     | 2023-12-20                   |
| <b>Markets:</b>                                                            | United States, Japan, Canada |
| <b>ENERGY STAR Certified:</b>                                              | Yes                          |
