

## Greenworks tools - EVC0640 : EVC0640

| Specifications  |                                       |
|---|---------------------------------------|
| Brand Name:   | Greenworks tools                      |
| Model Name:   | EVC0640                               |
| Model Number:   | EVC0640                               |
| ENERGY STAR Unique ID:                                | 3477606                               |
| ENERGY STAR Partner:                                  | Greenworks North America LLC          |
| Product Type:   | Level 2                               |
| Input Voltage (V):                                    | 240.0                                 |
| Max Nameplate Output Current (A):                     | 40                                    |
| Maximum Output Power (kW):                            | 9.6                                   |
| Number of Outputs:                                    | 1                                     |
| Maximum Output Cord Length (ft.):                     | 25                                    |
| Output Cord Gauge (AWG):                              | 8                                     |
| Automatic Brightness Control (ABC) Capable?:          | No                                    |
| Network Connection Types Available:                   | Wi-Fi or Gigabit Ethernet             |
| Auxiliary Product Features:                           | Radio Frequency Identification (RFID) |
| 15 A Operation Mode Test: Total Loss (watts):         | 36.0                                  |
| 30 A Operation Mode Test: Total Loss (watts):         | 68.0                                  |
| 4 A Operation Mode Test: Total Loss (watts):          | 6.0                                   |
| Full Current Operation Mode Test: Total Loss (watts): | 103.0                                 |
| Idle Mode Input Power (watts):                        | 5.75                                  |
| Idle Mode Power Factor:                               | 0.29                                  |
| Idle Mode Total Allowance (watts):                    | 22.5                                  |
| No Vehicle Mode Input Power (watts):                  | 3.93                                  |
| No Vehicle Mode Power Factor:                         | 0.26                                  |
| No Vehicle Mode Total Allowance (watts):              | 6.5                                   |
| Partial On Mode Input Power (watts):                  | 5.74                                  |
| Partial On Mode Power Factor:                         | 0.32                                  |
| Partial On Mode Total Allowance (watts):              | 6.5                                   |
| Date Certified:                                       | 2024-05-06                            |
| Date Available on Market:                             | 2024-05-06                            |
| Markets:  | United States, Canada                 |
| ENERGY STAR Certified:                                | Yes                                   |
