

ENERGY STAR CERTIFIED

# Electric Vehicle Chargers (DC-Output)

## Delta - EIDS-U200TSUUA1 : EIDS-U200TSUUA1

### Specifications

|                                                                       |                                                             |
|-----------------------------------------------------------------------|-------------------------------------------------------------|
| Brand Name:                                                           | Delta                                                       |
| Model Name:                                                           | EIDS-U200TSUUA1                                             |
| Model Number:                                                         | EIDS-U200TSUUA1                                             |
| ENERGY STAR Unique ID:                                                | 3435999                                                     |
| Type:                                                                 | DC-output (AC-input)                                        |
| Rated Input Voltage (V) AC-Input:                                     | 480                                                         |
| DC-input or AC-input:                                                 | AC-input                                                    |
| ENERGY STAR Partner:                                                  | Delta Electronics Inc.                                      |
| Maximum Nameplate Output Current (A) AC-Input:                        | 253.0                                                       |
| Maximum Measured Luminance of the High Res Display (candelas per m2): | 405.6                                                       |
| Output Cord Length (ft.):                                             | 25                                                          |
| Number of Outputs:                                                    | 2                                                           |
| Output Cord Gauge (AWG):                                              | 1/0                                                         |
| Single Phase or Three Phase:                                          | Three Phase                                                 |
| Product Configuration:                                                | All-in-One Product Configuration                            |
| Maximum Available Output Power:                                       | 200000.0                                                    |
| Maximum Output Power:                                                 | 200.0                                                       |
| Automatic Brightness Control Capable?:                                | No                                                          |
| Connected Capable:                                                    | Yes                                                         |
| Connects Using:                                                       | Wi-Fi,Wired Ethernet                                        |
| Network Connection Types Available:                                   | Gigabit Ethernet,Wi-Fi                                      |
| Screen Area, if EVSE has high res display (in2):                      | 37.5                                                        |
| Connector Type:                                                       | Combined Charging System (CCS)                              |
| DR Protocol:                                                          | Open Charge Point Protocol (OCPP)                           |
| Is Broadband Internet Connection Needed for Demand Response?:         | No                                                          |
| Network Security Standards:                                           | None                                                        |
| Protocols Used to Support Smart Charging:                             | SAE J1772                                                   |
| Integral Battery Bank:                                                | No                                                          |
| Product Features:                                                     | None                                                        |
| Auxiliary Product Features:                                           | PLC Board (ISO 15118),Radio Frequency Identification (RFID) |
| Idle Mode Input Power (watts) AC- Input:                              | 1137.57                                                     |

|                                                   |                       |
|---------------------------------------------------|-----------------------|
| No Vehicle Mode Input Power (watts) AC-Input:     | 61.88                 |
| No Vehicle Mode Power Factor AC-Input:            | 0.09                  |
| No Vehicle Mode Total Allowance (watts):          | 138.55                |
| Partial On Mode Input Power (watts) AC-Input:     | 62.55                 |
| Partial On Mode Power Factor AC-Input:            | 0.09                  |
| Partial On Mode Total Allowance (watts):          | 138.55                |
| Average Loading-Adjusted Efficiency (%) AC-Input: | 0.97                  |
| Date Certified:                                   | 2024-04-09            |
| Date Available On Market:                         | 2024-04-02            |
| Markets:                                          | United States, Canada |
| ENERGY STAR Certified:                            | Yes                   |
