

ENERGY STAR CERTIFIED

# Electric Vehicle Chargers (DC-Output)

Zerova - DQW\*24240##2\*# : DQW\*24240##2\*#

## Specifications

|                                                                       |                                                                                                                            |
|-----------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------|
| Brand Name:                                                           | Zerova                                                                                                                     |
| Model Name:                                                           | DQW*24240##2*#                                                                                                             |
| Model Number:                                                         | DQW*24240##2*#                                                                                                             |
| ENERGY STAR Unique ID:                                                | 3626784                                                                                                                    |
| Type:                                                                 | DC-output (AC-input)                                                                                                       |
| Rated Input Voltage (V) AC-Input:                                     | 480                                                                                                                        |
| DC-input or AC-input:                                                 | AC-input                                                                                                                   |
| ENERGY STAR Partner:                                                  | Zerova Technologies Taiwan Limited                                                                                         |
| Maximum Nameplate Output Current (A) AC-Input:                        | 500.0                                                                                                                      |
| Maximum Measured Luminance of the High Res Display (candelas per m2): | 176.0                                                                                                                      |
| Output Cord Length (ft.):                                             | 14                                                                                                                         |
| Number of Outputs:                                                    | 4                                                                                                                          |
| Output Cord Gauge (AWG):                                              | 0                                                                                                                          |
| Single Phase or Three Phase:                                          | Three Phase                                                                                                                |
| Product Configuration:                                                | All-in-One Product Configuration                                                                                           |
| Maximum Available Output Power:                                       | 240000.0                                                                                                                   |
| Maximum Output Power:                                                 | 240.0                                                                                                                      |
| Automatic Brightness Control Capable?:                                | No                                                                                                                         |
| Connected Capable:                                                    | Yes                                                                                                                        |
| Connects Using:                                                       | Wi-Fi,Wired Ethernet                                                                                                       |
| Network Connection Types Available:                                   | Gigabit Ethernet,Wi-Fi,Cellular                                                                                            |
| Screen Area, if EVSE has high res display (in2):                      | 303.33                                                                                                                     |
| Connector Type:                                                       | CHAdemo,Combined Charging System (CCS)                                                                                     |
| DR Protocol:                                                          | Open Charge Point Protocol (OCPP)                                                                                          |
| Is Broadband Internet Connection Needed for Demand Response?:         | No                                                                                                                         |
| Network Security Standards:                                           | Base on OCPP define                                                                                                        |
| Protocols Used to Support Smart Charging:                             | Other,ISO 15118-2 or later,Open Charge PointProtocol (OCPP)                                                                |
| Integral Battery Bank:                                                | No                                                                                                                         |
| Product Features:                                                     | smart charging distribute solution. With Display to support advertising exposure.                                          |
| Auxiliary Product Features:                                           | High Resolution Display,PLC Board (ISO 15118),Credit Card Reader,Radio Frequency Identification (RFID),Revenue Grade Meter |

|                                                    |                       |
|----------------------------------------------------|-----------------------|
| Idle Mode Input Power (watts) AC- Input:           | 262.0                 |
| No Vehicle Mode Input Power (watts) AC- Input:     | 151.0                 |
| No Vehicle Mode Power Factor AC-Input:             | 0.04                  |
| No Vehicle Mode Total Allowance (watts):           | 210.88                |
| Partial On Mode Input Power (watts) AC-Input:      | 172.0                 |
| Partial On Mode Power Factor AC-Input:             | 0.02                  |
| Partial On Mode Total Allowance (watts):           | 210.88                |
| Average Loading-Adjusted Efficiency (%) AC- Input: | 0.96                  |
| Date Certified:                                    | 2024-08-29            |
| Date Available On Market:                          | 2024-09-06            |
| Markets:                                           | United States, Canada |
| ENERGY STAR Certified:                             | Yes                   |
