

## Surgically Clean Air - Jade 2.0 : SCA5100C

| o .c  |                                    |
|---|------------------------------------|
| Specifications                                |                                    |
| ENERGY STAR Unique ID:                        | 2453250                            |
| Brand Name:                                   | Surgically Clean Air               |
| Model Number:                                 | SCA5100C                           |
| Model Name:                                   | Jade 2.0                           |
| Annual Energy Use (kWh/year):                 | 394.9145736                        |
| Partial On Mode Power (Watts):                | 0.49                               |
| Room Size (sq.ft.):                           | 554                                |
| Smoke-Free Clean Air Delivery Rate per Watt:  | 5.3                                |
| Dust-Free Clean Air Delivery Rate per Watt:   | 5.42                               |
| Pollen-Free Clean Air Delivery Rate per Watt: | 5.434782609                        |
| Smoke-Free Clean Air Delivery Rate (cfm):     | 357.1                              |
| Dust-Free Clean Air Delivery Rate (cfm):      | 365.5                              |
| Pollen-Free Clean Air Delivery Rate (cfm):    | 362.5                              |
| Technology Types:                             | Other,Ion Generator,Fan and Filter |
| Ozone Emissions (ppb):                        | 0.0                                |
| Network Capability:                           | No                                 |
| Connected Functions:                          | No                                 |
| Filter #1 Type:                               | HEPA-Type                          |
| Date Certified:                               | 2023-04-12                         |
| Markets:                                      | United States, Canada              |
| ENERGY STAR Certified:                        | Yes                                |
| ENERGY STAR Most Efficient:                   | No                                 |
