

ENERGY STAR CERTIFIED

# Uninterruptible Power Supplies

## Vertiv - GXE-10k00TLA102C00 : GXE-10k00TLA102C00

### Specifications

|                                                                      |                                                                   |
|----------------------------------------------------------------------|-------------------------------------------------------------------|
| ENERGY STAR Unique ID:                                               | 2329182                                                           |
| Brand Name:                                                          | Vertiv                                                            |
| Model Name:                                                          | GXE-10k00TLA102C00                                                |
| Model Number:                                                        | GXE-10k00TLA102C00                                                |
| Power Conversion Mechanism:                                          | Static                                                            |
| Minimum Configuration Tested Model Number:                           | GXE-10k00TLA102C00                                                |
| Active Output Power Rating Minimum Configuration (W):                | 9000                                                              |
| Apparent Output Power Rating Minimum Configuration (VA):             | 10000                                                             |
| Topology (ac):                                                       | Multi-Mode Double Conversion                                      |
| Topology and Product Type Combined:                                  | ac - Other                                                        |
| Application:                                                         | Commercial,Consumer,Data Center                                   |
| Rated Input Voltage (V rms):                                         | 380-415                                                           |
| Rated Input Frequency (Hz):                                          | 50-60                                                             |
| Rated Output Voltage (V):                                            | 220-240                                                           |
| Rated Output Frequency (Hz):                                         | 50-60                                                             |
| Rack Mountable:                                                      | Yes                                                               |
| Height (mm):                                                         | 420                                                               |
| Width (mm):                                                          | 160                                                               |
| Depth (mm):                                                          | 500                                                               |
| Normal Mode(s) Input Dependency Characteristic (ac):                 | Voltage and Frequency Dependent,Voltage and Frequency Independent |
| Modular UPS:                                                         | No                                                                |
| Number of Normal Modes:                                              | Multiple-normal-mode                                              |
| Default Normal Mode (ac):                                            | Voltage and Frequency Independent                                 |
| Test Input Voltage (V rms):                                          | 415                                                               |
| Test Input Frequency (Hz):                                           | 60                                                                |
| Test Output Voltage (V):                                             | 240                                                               |
| Test Output Frequency (Hz):                                          | 60                                                                |
| Total Input Power in W at 0% Load Min Config Lowest Dependency (ac): | 53.1                                                              |
| Efficiency at 25% Load Min Config Lowest Dependency (ac):            | 94.2                                                              |

|                                                            |                                                                                                                                                                                                                     |
|------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Efficiency at 50% Load Min Config Lowest Dependency (ac):  | 95.4                                                                                                                                                                                                                |
| Efficiency at 75% Load Min Config Lowest Dependency (ac):  | 95.6                                                                                                                                                                                                                |
| Efficiency at 100% Load Min Config Lowest Dependency (ac): | 95.5                                                                                                                                                                                                                |
| Weighted Efficiency Calc Min Config Lowest Dependency:     | 95.5                                                                                                                                                                                                                |
| Efficiency (%):                                            | 95.5                                                                                                                                                                                                                |
| Modular UPS Module Tested Model Number:                    | N/A                                                                                                                                                                                                                 |
| Energy Storage Mechanism:                                  | Battery                                                                                                                                                                                                             |
| Energy Storage System Technology:                          | Valve Regulated Lead-acid Battery                                                                                                                                                                                   |
| Energy Storage System Configuration:                       | Separate Enclosure                                                                                                                                                                                                  |
| Energy Storage System Removable to Another Room:           | No                                                                                                                                                                                                                  |
| Energy Storage System Runtime at 100% Load (min.):         | 8                                                                                                                                                                                                                   |
| Energy Storage System Runtime at 50% Load (min.):          | 19                                                                                                                                                                                                                  |
| Energy Storage System Warranty (yrs):                      | 2                                                                                                                                                                                                                   |
