| ENERGY STAR Unique ID:                                   | 2330332                                  |
| Brand Name:  | Tripp Lite                               |
| Model Name:  | AG-0314                                  |
| Model Number:  | INTERNET750U                             |
| Power Conversion Mechanism:                              | Static                                   |
| Minimum Configuration Tested Model Number:               | AG-0314                                  |
| Active Output Power Rating Minimum Configuration (W):    | 450                                      |
| Apparent Output Power Rating Minimum Configuration (VA): | 750                                      |
| Topology (ac):   | Passive Standby                          |
| Topology and Product Type Combined:                      | Alternating Current (ac) - Offline (VFD) |
| Application:   | Commercial,Consumer                      |
| Rated Input Voltage (V rms):                             | 120-120                                  |
| Rated Input Frequency (Hz):                              | 50-60                                    |
| Rated Output Voltage (V):                                | 120-120                                  |
| Rated Output Frequency (Hz):                             | 50-60                                    |
| Rack Mountable:  | No                                       |
| Height (mm):   | 85                                       |
| Width (mm):  | 130                                      |
| Depth (mm):  | 320                                      |
| Total Number of Outlets:                                 | 12                                       |
| Number of Battery Backup and Surge Protected Outlets:    | 6  |
| Number of Surge Protected Only Outlets:                  | 6  |
| Normal Mode(s) Input Dependency Characteristic (ac):     | Voltage and Frequency Dependent          |
| Modular UPS:   | No                                       |
| Number of Normal Modes:                                  | Single-normal-mode                       |
| Default Normal Mode (ac):                                | Voltage and Frequency Dependent          |
| Test Input Voltage (V rms):                              | 120                                      |
| Test Input Frequency (Hz):                               | 60                                       |
| Test Output Voltage (V):                                 | 120                                      |
| Test Output Frequency (Hz):                              | 60                                       |
