

ENERGY STAR CERTIFIED

# Uninterruptible Power Supplies

## UltraTech - 0E-RCKMT1500 : 0E-RCKMT1500

### Specifications

|                                                                      |                          |
|----------------------------------------------------------------------|--------------------------|
| ENERGY STAR Unique ID:                                               | 2635679                  |
| Brand Name:                                                          | UltraTech                |
| Model Name:                                                          | 0E-RCKMT1500             |
| Model Number:                                                        | 0E-RCKMT1500             |
| Power Conversion Mechanism:                                          | Static                   |
| Minimum Configuration Tested Model Number:                           | OR1500PFCRT2U            |
| Active Output Power Rating Minimum Configuration (W):                | 1050                     |
| Apparent Output Power Rating Minimum Configuration (VA):             | 1500                     |
| Topology (ac):                                                       | Line Interactive         |
| Topology and Product Type Combined:                                  | ac Line Interactive (VI) |
| Application:                                                         | Consumer,Commercial      |
| Rated Input Voltage (V rms):                                         | 120-120                  |
| Rated Input Frequency (Hz):                                          | 60-60                    |
| Rated Output Voltage (V):                                            | 120-120                  |
| Rated Output Frequency (Hz):                                         | 60-60                    |
| Rack Mountable:                                                      | Yes                      |
| Rack Mount Height (U):                                               | 2                        |
| Height (mm):                                                         | 433                      |
| Width (mm):                                                          | 88                       |
| Depth (mm):                                                          | 400                      |
| Normal Mode(s) Input Dependency Characteristic (ac):                 | Voltage Independent      |
| Modular UPS:                                                         | No                       |
| Number of Normal Modes:                                              | Single-normal-mode       |
| Default Normal Mode (ac):                                            | Voltage Independent      |
| Test Input Voltage (V rms):                                          | 120                      |
| Test Input Frequency (Hz):                                           | 60                       |
| Test Output Voltage (V):                                             | 120                      |
| Test Output Frequency (Hz):                                          | 60                       |
| Total Input Power in W at 0% Load Min Config Lowest Dependency (ac): | 3.3                      |

|                                                                   |                                                                                                                                                                                                                         |
|-------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Efficiency at 25% Load Min Config Lowest Dependency (ac):</b>  | 98.3                                                                                                                                                                                                                    |
| <b>Efficiency at 50% Load Min Config Lowest Dependency (ac):</b>  | 98.9                                                                                                                                                                                                                    |
| <b>Efficiency at 75% Load Min Config Lowest Dependency (ac):</b>  | 98.9                                                                                                                                                                                                                    |
